

How To Get Proof Of Social Security Numbers Or Benefits

To efficiently meet the needs of the public, we will begin phasing-in two service changes. Effective August 1, 2014, we will stop providing Social Security number (SSN) printouts and effective October 1, 2014, we will discontinue issuing benefit verification letters in our offices. As a result, we are asking agencies and other organizations to use our specially developed online methods to obtain this information and assist our mutual customers in adjusting to this change.

Utilize Data Exchanges

Social Security has collaborated with federal, state and local agencies to build hundreds of robust data exchanges during the past few years. We currently provide more than 1.6 billion electronic verifications of Social Security numbers or benefit information to employers, state and local agencies, and other authorized third parties. Agencies and organizations should use available data exchanges to get the necessary verifications. For more information about our data exchanges, please visit us at www.socialsecurity.gov/dataexchange.

In addition, employers, departments of motor vehicles and other entities can obtain Social Security number verification in real time or overnight using online government services such as E-Verify (www.uscis.gov/e-verify) and Social Security's Business Services Online (www.socialsecurity.gov/bsowelcome.htm).

How to get proof of a Social Security Number

Because Social Security number printouts are not official documents with security features and are easily misused or counterfeited, eliminating printouts will help prevent identity theft. A Social Security card is legal proof of a Social Security number. If your agency or organization requires proof and the person cannot produce a card, that person will need a replacement

card. To get a replacement card, a requestor must complete an *Application for a Social Security Card* (Form SS-5), available at www.socialsecurity.gov/ssnumber. The requestor also must provide original documents proving identity, age and citizenship or work-authorized immigration status.

Encourage Clients to Use my Social Security

If your agency or organization does not have a data exchange with Social Security, whenever possible, please assist the public with creating a **my Social Security** account at www.socialsecurity.gov/myaccount. There, people can get a benefit verification letter online instantly. With a **my Social Security** account, members of the public can also conduct other business with us, such as review earnings records and estimate retirement, disability, and survivors benefits.
